FOR THE ASSOCIATE COMMISSIONER,  
EXAMINATIONS

Terrance M. O'Reilly, Director  
Administrative Appeals Office

**DISCUSSION:** The nonimmigrant visa petition was denied by the director, Texas Service Center, and is now before the Associate Commissioner for Examinations on appeal. The appeal will be dismissed.

The petitioner is a wholesale importer and distributor of flowers to retail shops and other wholesalers. It seeks to employ the beneficiary as a purchasing manager for a period of three years. The director determined the petitioner had not established that the offered position is a specialty occupation or that the beneficiary qualifies to perform services in a specialty occupation.

On appeal, counsel argues that the offered position is a specialty occupation and that the general duties of the position warrant an individual with a bachelor's degree or higher.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(B), the petitioner shall submit the following with an H-1B petition involving a specialty occupation:

1. A certification from the Secretary of Labor that the petitioner has filed a labor condition application with the Secretary,
2. A statement that it will comply with the terms of the labor condition application for the duration of the alien's authorized period of stay, and
3. Evidence that the alien qualifies to perform services in the specialty occupation.

The petitioner has provided a certified labor condition application and a statement that it will comply with the terms of the labor condition application.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

A credentials evaluation service has determined that the beneficiary's foreign education is equivalent to graduation from high school in the United States. It is determined that the beneficiary is not qualified to work in a specialty occupation on the basis of education alone.

The petitioner indicates that the beneficiary has at least 12 years of progressively more responsible experience. For the purpose of determining equivalency to a baccalaureate degree in a field related to the job offered in this case, three years of specialized training and/or work experience must be demonstrated for each year of college-level training that the alien lacks. Here, the beneficiary needs twelve years of experience in the field of marketing to qualify. In this case, the record does not outline the beneficiary's work experience in enough detail to give him credit for the experience that he earned abroad. Therefore, the visa petition could not be approved for this additional reason even if the position of purchasing manager were found to be a qualifying specialty occupation. See: 8 C.F.R. 214.2(h)(4)(iii)(D)(5).

The petitioner has provided insufficient information regarding the beneficiary's employment experience. The record contains no evidence that the beneficiary holds a state license, registration, or certification which authorizes him to practice a specialty occupation. In view of the foregoing, it is concluded that the petitioner has not demonstrated that the beneficiary qualifies to perform services in a specialty occupation and the petition may not be approved.

The term "specialty occupation" is defined at 8 C.F.R. 214.2(h)(4)(ii) as:

an occupation which requires theoretical and practical application of a body of highly specialized knowledge to fully perform the occupation in such fields of human endeavor, including, but not limited to, architecture, engineering, mathematics, physical sciences, social sciences, medicine and health, education, business specialties, accounting, law, theology, and the arts, and which requires the attainment of a bachelor's degree or higher in a specific specialty, or its equivalent, as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(A), to qualify as a specialty occupation, the position must meet one of the following criteria:

1. A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;
2. The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;
3. The employer normally requires a degree or its equivalent for the position; or
4. The nature of the specific duties is so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

The duties of the position are described as follows:

Currently, we require the services of a Purchasing Manager-Import/Export to coordinate all activities involved with the purchasing of perishable flowers for the company. We believe we have found the ideal candidate

for this professional position. [REDACTED] will be responsible for contracting foreign suppliers to obtain pricing for the flowers. He will negotiate for the best prices and deliveries for our import/export flowers and will prepare detailed cost analysis of the purchases, before and after importation including the cost of the flowers, freight charges, duty taxes and all other related financial charges. In addition, [REDACTED] will issue purchase orders and coordinate the issuance of all import/export documentation including instructions to the foreign supplier regarding invoices and analysis of technical specification of equipment to be exported. He will also prepare documents for customs clearing and translate commercial invoices.

The petitioner has failed to establish that any of the four factors enumerated above are present in this proceeding. The petitioner has not shown that it has, in the past, required the services of individuals with baccalaureate or higher degrees in a specialized area for the proffered position. In addition, the petitioner has not shown that similar firms require the services of such individuals in parallel positions.

In these proceedings, the duties of the position are dispositive and not the job title. The offered position appears to combine the duties of a general manager or executive with those of a purchaser. The Department of Labor's Occupational Outlook Handbook (Handbook), 2000-2001 edition, at pages 50-51 finds no requirement of a baccalaureate or higher degree in a specialized area for employment as a general manager or executive. Degrees in business and in liberal arts fields appear equally welcome. In addition, certain personal qualities and participation in company training programs are often considered as important as a specific formal academic background.

The Handbook at pages 73-76 finds no requirement of a baccalaureate or higher degree in a specialized area for employment as a purchaser. Degrees in several unrelated fields appear equally desirable. In addition, on-the-job training appears more important than a specific educational experience.

In view of the foregoing, it is concluded that the petitioner has not demonstrated that the offered position is a specialty occupation within the meaning of regulations.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. 1361. The petitioner has not sustained that burden.

**ORDER:** The appeal is dismissed.
